Hey, thanks for helping me out. I'm just doing a quick survey on how people use AI and whether we can actually trust what it says Is it okay if we record this? Yeah, sure Yeah, what do you use AI for daily life for your studies? I use AI mostly for problem-solving especially in coding and assignments It also helps me improve my writing and gives quick explanations when needed. Yeah, do you trust AI answers or double-check them? I trust them sometimes, but not always.

I usually verify important answers because AI can make mistakes sometimes Is AI making us think less or helping us learn better? Yes, if we overuse it, but it can reduce thinking also But if we use it properly it helps it becomes very useful and helpful learning tool Yeah, where do you draw the line between help and cheating? I think it's helpful when we use it to understand concepts But it becomes cheating when we submit AI answers as our own answers. Yeah. Thank you.

Yeah, sure
